Priority

1. An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) in the first sentence of the specification of in an application data sheet (37 CFR 1.78(a)(2) and (a)(5)). The specific reference to any prior nonprovisional application must include the relationship (i.e., continuation, divisional, or continuation-in-part) between the applications except when the reference is to a prior application of a CPA assigned the same application number.

Information Disclosure Statement

2. The information disclosure statement filed June 17, 2002 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because it lacks page numeration and some references are illegible as follows. The US and foreign patent documents were all considered. However, regarding the other documents, only those references that complied with provisions of 37 CFR 1.97, 1.98 such as being legible and listing pages were considered. Specifically, the reference to Big Bang Piggy Bankin, Caribbean Gold II, Cashbox, Empire Game, Price Is Right Showcases, Psycho Cash Beast, The Deals of Let's Make A Deal written by fortunecity, Treasure Wheel/Treasure Tunnel and X-Factor were illegible at least of data on first page such as screenshot of machine. The Price Is Right Showcases had chopped or missing print. The Deals of Let's Make A Deal was entirely unreadable. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the

Art Unit: 3714

statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

3. The information disclosure statement filed June 17, 2002 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. Specifically, reference to Jackpot Party advertisement reference was missing. I

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claim 1-20 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1-27 of U.S. Patent No. 6375187. Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to claim the method or device/apparatus broader in order to obtain the most commercially viable form of invention or in order to obtain the broadest protection for invention for securing commercial viability. Essentially, the omitted language pertaining to means for determining a number of award offers limited the invention and thus by omitting the

Art Unit: 3714

language, a broader form of invention is claimed which secures broader protection for commercial viability.

Allowable Subject Matter

6. It is noted most relevant art that appears to have the offer/reject scheme include at least Applicants' admitted prior art cited in background, cumulative references to 'The Addams Family' game for Market Madness bonus feature, 'Fire & Fortune' and 'Top Dollar' game. However, it is unclear whether any of the prior art of record possesses eliminates/nullifies each award offer made to player that is subsequently rejected by the player or communicates a nullified or eliminated offer. Thus, at this time, the eliminates/nullifies feature/step appears to be allowable subject matter.
